Aromatic Catarrh and Headache Snuff.

THIS is the best preparation in the world for a cold in the head, the HEADACHE, and all CATARRHAL AFFECTIONS.

It also acts on the lungs and restores a healthy action to the whole of the glandulous membranous passages of the head, the *burning* of which produces pain in the forehead and region of the eyes a sort of snuffing in the nose, a sense of matter dropping from the head into the throat, &c All of which is easily and speedily, in the most confirmed cases of CATARRH, usually cures in from *to four months*.

It is also an invaluable cure for the NOSE BLEED, if properly administered in the early stage.

RECOMMENDATION.

[Certificate of Dr Perry, Portsmouth, N H]

PORTSMOUTH Sept 29 1849

Mr J P. Moore, Agent for "White's Hair Restorative"

Dear Sir—I deem it my duty to state some facts respecting the inestimable value of White's Hair Restorative Several years ago, after a severe fever sickness my wife lost all of her hair the scalp appeared dried and shiny, it never grew out afresh, and thereafter About a year ago by another fit of sickness she lost all her hair a second time, and for a long time there was apparently no action in the scalp After various applications I was induced to try the above mentioned Restorative and upon the use of a few bottles her hair has grown out as thick, as luxurious and as beautiful as ever Furthermore for a long time I have been afflicted with neuralgia and other pains in my head and I have found it the best external remedy I have ever tried I can therefore cheerfully recommend it to all who are afflicted as above as the best art cle I have ever seen

McKENNEY'S

COSSACK SALVE!!

An Invaluable Remedy

FOR Fever Sores Rheumatism, Swelling of the Feet and Legs Inflammation of the Lungs or Sore Throat Chilblains Erysipelas Tetter Salt Rheum Chilblains Scrofulous Diseases Rigid Cords contracted by Colds or Strains, Stiff Neck, Chilblains or Chapped hands, Sore or Inflamed Breast, Weakness or Pains in the Stomach Piles Corns Warts and Common Sores and Cuts and Burns of all kinds.

In bringing this article before the Public we are aware that we labor under no small disadvantage under the multitude of "All-Healing Ointments" and "Panaceas" that are now advertised as the *"most effectual"* and *certain cures* for all diseases indiscriminately, to which man or animals are subject

A history of this Salve and the wonderful cures it has effected in the above complaints, will be found in a pamphlet accompanying each Box—a reference to which is invited before purchasing

We would kindly add that we have ascertained the task of introducing this article to notice with no inconsiderable trouble and expense, not so much as a matter of speculation and pecuniary benefit as in compliance with the earnest and repeated solicitations of personal friends and those who have experienced its wonderful medicinal and all-healing properties

To say, indeed, that we do not expect to realize handsome remuneration for our services, would be alike useless and untrue But we flatter ourselves that it, forthwith, we are richly paid, and the article soon, very soon has an extensive sale—the Public are receiving a full and ample equivalent

As we have already intimated we do not and shall not call to our aid the empty *puffing of the Press*, or the "bought certificates" of individuals, and shall make use of them only so far as they have been, or hereafter may be, entirely *voluntary* and *unsolicited*

The Salve is now before the Public!

They, and they alone, will decide upon its real virtues and medicinal properties To say less, were injustice to ourselves—to say more would be superfluous

Here are some of the many Certificates,—

The subscriber was afflicted with a Fever Sore upon his leg for about six years and in the winter of 1845 it commenced swelling from the ankle to the knee After using many remedies without success I applied some Salve obtained of Mr A M McKenny, and continued its application until I had used six bottles which entirely cured me, and I have had no return of the disease since and would also say that I know the above Salve to be a cure for Corns, one of my family having used it for this purpose with complete success

DANIEL SEAVEY

Dexter, (Maine) May 1, 1846

This certifies that one of my sons having been afflicted with a Fever Sore for more than a year, and having tried various means to effect a cure, with at success which cost me about forty dollars, I bought a box of JONATH McKENNEY'S SALVE, which effected a entire cure in less than two months SIMEON MARSTON

Mr McKenney—In going into the woods in the autumn of 1845 with the charge of quite a number of men for the winter lumbering operation, I was induced to take a few bottles of your Salve, it having been recommended to me as one of the best remedies for accidental Cuts and bruises, and I found indeed to my great satisfaction that it was an invaluable article I also made application of it in cases of Cuts Sprains and bruises upon my cattle and found it equally beneficial It can truly be called the All-Healing Salve

Holden's Alterative and TONIC MIXTURE,

IS the best combination known for changing the unhealthy secretions of the Stomach, and giving strength to that organ, and for removing many troubles which are often attributed to impurity of the blood

Its action is that of a mild Alterative and Tonic, restoring health and strength often without producing any sensible evacuation, and without leaving behind any unpleasant effect on the constitution

By its use the appetite becomes regular and good, digestion perfect and head ache and many nervous disturbances growing out of imperfect digestion are generally cured Persons of debilitated constitutions become healthy and strong by its use

By reason of the sympathy between the stomach and the skin many diseases of the latter grow out of a morbid action of the former even when the ordinary symptoms of Dyspepsia are wanting and are cured by this medicine

Many troubles of children supposed to arise from worms are caused by a derangement of the stomach and are removed by its use Persons of intemperate habits and children left feeble by protracted illness or the same principle are restored to health and vigor by it use

It contains no poisonous ingredient, and cannot in any case do harm

Home Testimony

We, the undersigned have ourselves or in our families used Holden's Alterative and Tonic Mixture and are satisfied it is a very valuable preparation for the cases for which it is recommended

NO. 22 STATE STREET, BOSTON.

IN 1849 the subscriber was appointed by the Commissioner of Patents Agent of the U S Patent Office, in accordance with the 10th Sec of Act of '37

Having relinquished the Agency for the transmission of Models and adopted a more expeditious mode of securing them there at the Patent Office *where by a Patent may be procured about six weeks earlier*, he continues to forward them free of expense—to prepare Caveats, Specifications Assignments and all the necessary Papers and Drawings for Patents, and to render advice on legal and scientific matters respecting the same Patents secured in Europe and other countries

By application at this office, inventors are saved the time and expense of a journey to Washington and delay there, as well as all personal trouble in obtaining their patents They also have the advantage of *verbally* explaining their inventions, and of consulting in respect to them, *matters, in general of paramount importance in order to obtain correct specifica ions and claims*, The experience of *sixteen* year s practice, an extensive collection of rare works decisions &c on mechanical subjects the Patent laws and patents of 10 000 inventions, collected at much expense during the long time this office has been established together with accounts here kept of inventions patented at Washington, enable the subscriber to afford to inventors decision procuring Patents assistance and information which in other respects might be difficult of attainment

R H EDDY Solicitor of Patents.

WASHINGTON, JULY 21, 1849.—

During the time I occupied the Office of Commissioner of Patents R H EDDY, Esq, of Boston, did business at the Patent Office as Solicitor for procuring Patents There were few, if any persons acting in that capacity who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity and success Bregard Mr Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring Inventors that they cannot employ a person more competent and trustworthy, and more capable of putting the application in a form to secure for them an early and favorable consideration at the Patent Office EDMUND BURKE,

John S. Sayward ... Editor.

THURSDAY, DECEMBER 20, 1849.

Railroad to Waterville.

We publish in our Columns to-day, the notice of a majority of the persons named in the first section of an act passed by the Legislature of Maine, granting a charter for the Penobscot and Kennebec Railroad, that the books of subscription to the stock will be opened at Bangor, on the 4th day of February next, at Augusta, on the 5th, at Portland on the 6th, at Salem, on the 7th and at Boston, on the 8th day of February next.

The importance of the road, not only to the stockholders, but also to all that portion of the State through which it will pass, and to other interests connected with these, cannot fail to awaken a deep interest in behalf of the enterprise. Indeed, we find that there is a growing interest felt by the people in behalf of the speedy construction of the road, and an increasing desire to avail themselves of the benefits which the iron river can confer. It is getting to be the subject of general discussion, and the public mind is fast coming to calculate upon the amount of stock which each town can invest in the work.

These discussions embrace, very naturally, the subject of the best route for the road, and the collection and dissemination of all the needed information as to the population, resources, mills, manufactures and other statistics bearing upon the subject. This is all well, and all necessary in order to a complete and thorough understanding of the matter. It should be borne in mind, we cannot but suggest, that in all these matters there should be great attention to definiteness and accuracy of statement, each fact standing securely by itself, to be compared with any other like fact, and all so arranged as to themselves express the truth which results from the entire statement of facts. Every writer upon these railroad matters, and in favor of the different routes, should be strongly impressed with this idea, that every fact is not a truth, but only, it may be, a part of a truth, a link in the chain which is not a chain until completed, and also that those who are engaged in the investigation of the matter, require not only the whole truth, or chain, but the opportunity to examine, separately, every fact of the truth, and every link of the chain.

We perceive that there is likely to be much discussion upon the subject, and in such case, it seems a pity to have any waste matter in mere general, however eloquently expressed, paragraphs. Hence, these familiar suggestions.

We also publish to-day, a notice to the citizens of Unity, Troy, Dixmont, Newburg, Hermon, Bangor, and adjoining towns, for a Mass Meeting, to be held at Troy Corner, on the 29th of December, inst., to consult together upon the matter of a route for a road, south of the lines heretofore mentioned.

Our readers have had laid before them, in previous papers, several facts connected with the route by Newport; also the northern route by Dexter and Canaan, and now attention is to [illegible] it is called by its friends.

It is said of this route, that it is nearly in a direct line from Bangor to Waterville; that it is the shortest route, saving some ten miles in distance from the Newport route, and some twenty odd over the northern route—that it passes over a very level country. It avoids the Dixmont hills altogether, by passing between the villages of Dixmont Corner and North Dixmont, about midway, where there are no hills or other difficulties.

But it is not our object to discuss this matter, only intending now to call the attention of all interested, to the proposed meeting, at which, probably, there will be a full statement of facts, and where measures will probably be taken for a further examination, and perhaps for a survey.

The prospect seems favorable in many ways for a handsome subscription to the stock of the road between this city and Waterville. Men begin to feel that the road is necessary, and that some exertion on their part is necessary to insure its speedy construction.

Ellsworth Lyceum. A correspondent at Ellsworth states in explanation of a paragraph which appeared in our columns stating that Dr. Pond of this city was to deliever an address at Ellsworth on the occasion of the Landing of the Pilgrims, that Dr. Pond is to deliver a lecture before the Ellsworth Lyceum—an institution now in a flourishing condition there, having weekly lectures, and with funds sufficient to continue during the winter.

Two lectures have been delivered before it by Prof. Crosby, of Dartmouth College, and on Friday evening of the present week a lecture is to be delivered by Dr. Pond.

We are glad to learn the fact of the existence of a Lyceum at Ellsworth, as it speaks well for the enterprize and intellectual stamina of the people there.

☞ Parker Smith, conductor on the Manchester and Lawrence Railroad, while leaving Lawrence, Saturday afternoon, leaned forward from the platform of the car, and was struck in the head by a switch target, which knocked him from the platform, while he clung to the hand-rail with one hand, and swinging around between the cars, fell upon the track. On Monday, 26th ult. at about half-past 9 o'clock, P. M. an earthquake was very sensibly felt at Henderson, Ky. which was of about half a minute duration, accompanied by a heavy, rumbling sound. Houses were shaken to their very foundations, causing windows, spoons and crockery to rattle so as to be heard in any part of the house.

Turkey.

A letter from Orshova of the 5th inst, in the Wanderer, has the following account of a translocation of the Magyars and Poles from Widdin to Shumla:—

'The old city of Widdin, that old heap of ruins and neglected walls, has now lost that ephemeral importance which it derived from the residence within its walls of the fugitive Hungarians. The Hungarians have left Widdin, neither voluntarily, nor, indeed, against their will, for every step which they take away from the Austrian frontier, and from Russified Wallachia, gives them more of safety and liberty.—The transference of the fugitives to Shumla does not look like consigning them to the interior of [illegible] been more fitting for the latter purpose, and it is now expected their stay at Shumla will be short, and that the Turks will soon send them to Varna. When the news of the removal of the fugitives came to Widdin, M. Kossuth addressed them one of his famous speeches, which this time too, told upon them as usual. He mentioned the glorious resistance of the Porte, the generosity of the Padishah, and the never dying glory of Turkish hospitality. According to him, the removal of fugitives to Shumla was but another proof of the desire of the Turks to protect him and his friends. He talked of the energetic attitude of England, and prophesied another war, another series of victories and last, not least, the liberty of the Hungarian nation. He was violently cheered, as the temper of the fugitives was the more favorable for Turkey from the fact of the Sultan having sent a considerable sum of money to the poorer fugitives. Some complaints of the want of fairness in the distribution of this money were indeed heard, but the complainants were silenced by the kind and indeed loving, persuasion of their officers, and all looked cheerfully forward to the day of departure. Their exit from Widdin was thoroughly oriental.

We learn from the statements of eye-witnesses that it offered the spectacle of a strange mixture of splendor and poverty. The chiefs of the emigration were on horseback, and at their side were the mean looking Turkish carts of those who would not or could not go on horseback; men in uniforms covered with gold interspersed with men in Honved coats, and those, too, rather the worse for wear. There were carriages filled with women, and the whole was surrounded by an escort of Turkish horsemen. On the 30th of October the road from Widdin to Shumla was crowded with curious spectators a rumor having gone abroad that the first convoy was to leave the city on that day. The curiosity of the public was gratified, for a troop of 300 Poles appeared, with Murat Pasha (Gen Bem) riding at the head of the column. Murat Pasha is a little man; his face is covered with scars. The Poles were dressed in various costumes; their copps alone were distinguished by their national colors. They were accompanied by Messaros and Count Vay.

On the following day, Count Mour. led his countrymen away from Widdin; they looked more soiled and worn but also by far merrier than the Poles. The 165 men who composed the third body were a motly crew of all nations. They had all embraced the Mahomedan faith. At their head rode Ferrat Pasha (Gen Stem), with the adjutant Oroddy, and Kismil Pasha (General Kmettz) with his staff. The last body, 320 strong, left Widdin on the 3d of November. It was led by Kossuth. He wore a large hat with a white feather. He was surrounded by Messrs Egressy, H[illegible] and others, and followed by the Count and Countess Kasimir Batthyani, Colonel Asgott, and Councillor Francis Hasman. The people of Widdin were sorry to see them go away. The lower classes, in particular, looked upon the Magnates and Generals with that feeling of respect and awe which a great misfortune always commands from men of strong religious feelings.'

A private letter from the Dardanelles of the 6th inst, announces that Sir William Parker anchored on that day at San Sigiar, below the inner castle of the Dardanelles, with his fleet.—The French fleet, under the command of Admiral Duchesne, was at the islands of Omlae on the 7th inst.

There is much good sense in the following remark of the late Mr. Hale, of the New York Journal of Commerce. Nothing is gained by noticing personal attacks which appear in the columns of a newspaper, and the most fitting punishment which can be meted out to the author of such attacks, is to treat them with silent contempt.—[Portsmouth Jour.

Boundary line of California and Mexico.

Upon the occasion of fixing upon the starting point of the Southern boundary of California by the joint commission of the United States and Mexico, the American commissioners (including Colonel Weller) rode down from San Diego to the 'Punta' to meet the Mexican Commissioners, for the purpose of settling upon a boundary line. Having met, they rode to Southernmost point on the bay of San Diego, and then to the other end of the Marine League.—After a few minutes consultation, the point was decided upon, and they returned to Mr Cray's Camp at the Punta.

Having partaken of a collation, they started for San Diego, eighteen miles distant, and arrived there the same night. The starting point of the boundary line thus determined on, is on the extremity of the table land, as you approach the bay, and is the first land you make in a steamer approaching San Diego from the South. It may be marked by a lighthouse some future day.

On the tenth of October, the Commissioners again met, and jointly signed a paper, written in Spanish and English, to the effect that this was the point determined upon by the joint Commissioners of the American and Mexican governments, under the treaty of Guadaloupe Hidalgo, as the starting point on the Pacific for the boundary between the two Republics. This paper was enclosed in a glass bottle and placed in the bottom of a hole in the earth, three feet in depth. Some shovels full of earth were then thrown upon the bottle by Col Weller in behalf of the American, and General Conde on behalf of the Mexican Government. An upright post was then planted in the hole to mark the spot. During these ceremonies, the countenances of the Mexican Commissioners exhibited a remarkable degree of gravity; they did not forget they were affixing the last seal to the treaty for the dismemberment of their Republic.—N. Y. Express.

From Texas.—Dates to the 4th have been received:

On the 28th ult. the court house and jail and all the public records in Jasper county were burned. It was supposed to have been done by a Mr. Williams, whom Judge Roberts had imprisoned for some offence. He has been arrested on suspicion. The value of the property was considerable, and the difficulties and dangers resulting from the law suits may be immense. It is supposed to be at least $100-000

A large bed of lake salt has been discovered about sixty miles northward of Georgetown, and ninety miles from Austin. The salt is remarkably pure.

On the 25th inst. the steam propeller Jerry Smith, employed as a lighter in Lavaca and Matagorda Bays, in conjunction with the New Orleans packets, burst her steam chimney, scalding the engineer, John Kinnell, so that he died in three hours, and injuring a fireman so much that no hopes are entertained of his recovery. No other person hurt.—[N. O. Pic., 7.

The Southern Feeling in Congress.—The Southern members, Whigs and Democrats threaten to leave the House in a body as soon as the Proviso is passed and signed by the President, and from the character of the men who hold that language—men who never went with Mr. Calhoun, I am bound to believe that they are in earnest. It is no longer the Calhoun party, but the whole South, which threatens disunion, preferable to the everlasting agitation of the Slavery question over their heads. Even the moderate men of the South, who *refused* to sign Mr. Calhoun's address, prefer the Separation of the Union to what they believe to be degradation to their honor, and to that of the States they represent. There is a unanimity of sentiment among them which is appalling, and which it would be wicked to provoke at this moment.—[Wash. Cor. Phil. Ledger.

The following is so just an illustration of the emendations which Dr. Watt's hymns receive from musicians, that we offer no apology for copying it; but only express a wish that every "improver" would consult as sensible a minister, before finally adapting Watt's verses to his music:

Improving Church Music.—By the way, a good story may be told of our chorister's attempt at improving the psalmody as well as the music of our church. He set some music of his own to one of the Psalms of Watts, in which occur these lines:

"O may my heart in tune be found
Like David's harp of solemn sound."

Calling on his pastor, who has more music in him than you would think, the chorister asked his approbation of a new version of these lines which would render them more readily adapted to the music he had composed. He suggested to read them as follows:

'O may my heart be tun'd within,
Like David's sacred violin.'

The good pastor had some internal tendencies to laugh in the singing man's face, but mastering his gravity as well as he could, he said that he thought that he could improve the improved version, admirable as it was. The delighted chorister begged him to do so, and the pastor, taking his pen, wrote before the eyes of his innocent parishioner these lines:

'O may my heart go diddle diddle,
Like uncle David's sacred fiddle!'

The poor leader, after a vain attempt to defend his own parody, retired, and I guess he will sing the psalm as it stands.—[Newark Adv.

Advertising. It is said quite often, O, people do not read advertisements; 'Every body knows what *we* keep.' *Lo! they?* Here is a case in point. Some friends of ours, who gave us to understand that they consider our notions on this particular subject as little better than moonshine, obstinately refused even to give us the opportunity to prove the truth or falsity of these assertions; consequently, in the kindness of our heart, we gave them the benefit of a couple of squares, free gratis, for nothing at all. It happened that in drawing up the advertisement we inserted some articles which were not upon their shelves. The constant call for these very articles became so very annoying after a time, that we were requested to suppress the advertisement. We did so, of course; though we could see no reason for suppressing a portion of a column which *no body reads*.—[Cambridge Chronicle.

This Mr. Wm. J. Brown, the Democratic nominee for Speaker, must be, we should think, peculiarly acceptable to the Free Soil party. When a member of Congress, he voted *against* the reception of Abolition petitions;—and when Assistant Postmaster General, he removed last year a Mr. Sickles, a Postmaster in the Western part of the State of New York, from his office, on the ground of his having advocated the election of Mr. Van Buren; and yet our *three* worthy members, elected by Free Soil votes, voted for him as Speaker!—[Hartford Courant.

In June last, Capt. Hussey, of ship Planter, of Nantucket, was informed by his crew that the ship had cruised long enough, and should go into port, and they armed themselves with knives, &c., to drive the captain to their terms, or to take possession of the ship. The captain had the ship's muskets brought on deck and loaded, gave his men half an hour for consideration, and then ordered one of them to come aft. He refused, and the captain shot him dead. The rest returned to their duty.

On motion of Mr. Dickinson of New York, the election to fill committees was then postponed until to-morrow.

New York Markets.

The cotton market is dull, with a downward tendency.

The flour market is firm, with sales of 1600 bbls. at previous rates, $5,25 for Baltimore.—Otherwise the market is unchanged.

A successful merchant, who commenced with a clerkship at a low salary, remarked, in speaking of young men who intend to pursue the mercantile life, as follows:

'It is a trade to be learned, and in order to secure success, and especially with a young man without capital, he should enter as a clerk in some successful house, without regard in the start as to the amount of salary, devote his undivided attention to acquiring a thorough practical knowledge of the business in all its branches; make himself as far as possible indispensable to the concern; stick to one place; and in time it can hardly be otherwise than that he will become a principal,—some change will occur to effect it.

An Anecdote. The Rev. Rowland Hill [illegible] to ride to and from his church in an old-fashioned carriage, an heir-loom in the family. This gave offence to one of his members at least, who went so far as to hand in among the notices one requesting 'the prayers of the congregation for the pastor, who, yielding to pride, is in the habit of riding in his carriage, not content like his divine Master, to ride upon an ass.' It was not until Mr Hill had read the paper, and observed the sensation created that he noticed particularly its import; then coolly laying it down, he said, "It is true, brethren and friends, I am in the habit of riding in my carriage, but if the author of this notice will appear at the door at the conclusion of the service, saddled and bridled, I will do my best to ride him home. [Nottingham Paper.

Frederika Bremer (says a letter received from the 'North American Phalanx' in New Jersey) paid us a visit last week. She seemed quite pleased, and entered very genially into all that was going on—mixed a batch of bread, sewed hominy bags, and would have gone out to dig potatoes if it had not rained. There was an old Swedish officer with her; whom we liked mightily. He came to compile some of the beauties of our republican customs for home use—the King, he says, being inclined to anticipate revolutionary tendencies. Miss B. charmed all by her musical gifts. The girls cried and laughed, like wild creatures as they are, under the influence of the delicate magic of her notes as she played the 'Sea King's Bride,' and other national airs.

SPITTING BLOOD.

Read the following and say that Consumption is incurable, if you can.

New York, April 23, 1847.

Dr. S. P. Townsend— verily believe that your Sarsaparilla has been the means, through Providence, of saving my life. I have for several years had a bad Cough. It became worse and worse. At last I raised large quantities of blood, had night sweats, and was greatly debilitated, and reduced and did not expect to live. I have only used your Sarsaparilla but a short time and there has a wonderful change been wrought in me. I am now able to walk all over the city, I raise no blood, and my cough has left me. You can well imagine that I am thankful for these results.

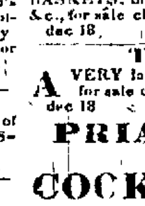
PRIAM OF TROY
AIR-TIGHT
COCKING STOVE
IMPROVED FOR 1849 & 50,



AND combining more advantages for Cooking, than any other Stove ever offered for sale in this Market.

WM. S. MITCHELL & CO

WOULD inform their friends and the public in general, that they have just received another lot of the above justly celebrated Cook Stoves, which makes their assortment equal to any in the city.

The Priam of Troy

Has the largest and best oven of any Stove ever invented. It will take in from four to ten of the largest sized plates; and it is heated quickly and perfectly even by means of deep hollow grooves in the back and bottom of the oven, exposing from three to five hundred square inches more surface to the oven than can be done by a plain surface.—The Stove is so arranged that the wood burns upon a self clearing grate, which gives you a clear and brisk fire; without being to the trouble of first clearing your fire room of ashes, and the fire can be preserved as long as in any other Cook Stove.

There is a sett of large Rims or Rings connected with the Stove, so that our Farmers and all who wish to use large brass or iron Kettles, or any kind of old fashioned Ware, holding from one to ten pails, can do it at their pleasure. The whole Stove is regulated by means of only one damper, is neat in its appearance, and in fact is one of the best companions for the kitchen now in use, as thousands who now have them will testify.

Abdominal Supporter.

☞ WILSON'S IMPROVED PATENT.

THE subscriber, having purchased the right of selling the above instrument for the County of Penobscot, hereby *cautions* all persons against selling any other supporter in general and *Fitche's in particular*, being an infringement on Wilson's Patent, granted May 26, 1843, for twenty years, *and a reward of ten dollars will be paid to any person who will furnish sufficient evidence to sustain an action of trespass against the above right after this date.*

This improved Supporter has but recently been fairly before the public. The right for selling it is offered on condition, that in case it is not what it purports to be, the purchase money will be refunded. In Constipation of the Bowels, Prolapsus, Uteri "Falling or bearing down" of the Womb, Fluor Albus, Sinking at the Stomach, Weakness, and Pains in the Side, and Small of the Back, there is probably not a more effective remedy.

This Supporter should, and doubtless will, be in the hands of every scientific Surgeon and Physician. It is a mechanical aid, and will perform that which medicine fails to achieve.

The attention of Physicians and Surgeons throughout this county is invited to the above instrument, and rights will be sold to towns and districts and Supporters furnished on the most reasonable terms. For a single Truss, price $6 00.

Physicians in the country may communicate *post paid*, giving the number of towns and inhabitants for which they wish to purchase the right, and terms will be promptly given, and a Supporter sent as a sample, if, requested, *for examination.*

THE undersigned would respectfully announce, has arrived in this place, and has taken rooms at the Penobscot Exchange, (A. WOODARD'S) Bangor, where he may be consulted for the purpose of effectually curing those addicted to

Stammering or Stuttering,

who wish to be relieved. So confident is he of success, that no pay will be required until the utmost satisfaction is given. Those of this city, and the adjacent towns, who are afflicted in the above manner, have now an opportunity of receiving aid seldom offered. His rule is so simple that a child five years old will perfectly understand it, and yet so efficient that he defies any person to stammer and apply it. Drummond Candlestick.

THE novelty of the idea of "making and wicking your own candles, by simply turning the bottom of the Candlestick" seems to require a statement of a few facts in regard to the properties of tallow and tallow candles, not generally known.

The hardest tallow, when subjected to a kneading process, becomes plastic. This fact was discovered by the gentleman, whose name has been given to this Candlestick.

It is generally supposed that a tallow candle must run or drop, because it is tallow. This is a mistake. The dry wick, by absorbing a part of the melting material together with the consumption, prevents running or dropping, *hence the advantage of the Drummond Candlestick.* It makes and wicks its own candles out of tallow, lard, or other substance of which cheap candles are made, simply by pouring in the melted grease into the lower chamber of the Candlestick and by the action of the Screw turns out a candle smooth, hard end of any desired length. The paramount advantage is, that the light can always be kept near the object to be seen, the candle, if desired always the same length.

Its economy,—The trouble of filling being less than a Lamp, inasmuch as it only requires to be filled once in six days! allowing it to be burned four hours the usual time in which artificial light is required,—you have a candle at the low price of one cent per night.

Attest—H N Lancaster,
American House, Belfast

Dr Forbes is eminently successful in his cure of Stammering No other evidence is needed of that fact than the certificates of four of our leading physicians in the city, which we append He has remained some very afflictive cases—and in this respect is truly a benefactor The following certificate is conclusive, as to the efficiency and simplicity of his system —[Argus of Oct 11th

The undersigned having witnessed the successful result of the application of Dr Forbes' principles for the cure of Stammering, cheerfully bear testimony both to the simplicity and entire efficiency of his system

Wheeler's Salamander Safes.

☞The Following Letter from the Superintendent of the Maine Telegraph Company is another proof of the superiority of JOHN E WILDER'S Safe over all others —

BANGOR, Oct 21, 1849

John E Wilder, Esq —

Dear Sir—The Safe I purchased of you was exposed to a great degree of heat at the burning of the Telegraph Office, in this city It was in the fire six hours the books and papers were uninjured, and the damage to the Safe very slight, although it fell from the second story to the basement of the building The little repairs necessary to the Safe have been made, and we shall not hesitate to return it, It is still as good as new

Respectfully yours, JAS EDDY

LATEST AND BEST
....IMPROVED....
Patent Bedstead.

THE Subscribers have purchased the right of manufacturing and selling HINKLEY'S IMPROVED PATENT BEDSTEAD for the city of Bangor

This improvement is simple in its construction and consists in furnishing a substantial Bottom to Bedsteads which shall be durable and have all the advantages of a Slat, or Sacking Bedstead while at the same time it serves to secure the posts and rails compactly together and the Bedstead can be fitted to any Bedstead, *old or new*, with much less time and labor than is required to put in a cord and when fitted, gives *great strength* and support and keeps the Bedstead in proper shape It cannot be doubted that this simple improvement, will when known take the place of every other method now in use We can confidently recommend the above improvement to our customers and to the public as the cheapest most substantial and best Patent Bedstead ever invented

The Public are respectfully invited to call and see for themselves SHAW & MERRILL,

Another Life Saved.

Read the following letter from a Clergyman of Camden, Me., to the Editor of the GOSPEL BANNER —

DOWN'S ELIXIR,—A CURE.

BR DREW—being anxious to do good to my fellow beings, as I have means an opportunity I wish to state, through the Banner what in my sickness last winter and spring I received very great benefit from the use of N H DOWN'S ELIXIR

I had been troubled some weeks with a severe cold which so affected the vocal organs, that it was with great difficulty I could speak the duties of my office My cold continued until I was completely prostrated by bleeding which created a dry, hard cough My appetite failed, my strength was fed, and my flesh disappeared, fleeing Winter's Ill Icam of Wild Cherry recommended in the Banner, I procured a bottle and commenced taking it and continued its use until I had taken three bottles when I became satisfied that it contained opium, making a large amount of pyschic efficacy, and also containing the virtue of roots that should be related I had other kinds of patent medicines, but with no good effect seven weeks I continued gradually to sink under my disease, and the expiration of which time, I was during a week, my skin dry and husky and my feet and hands cold most of the time I had a dull, heavy pain between my shoulders and a distressing pain at the pit of my stomach My tongue was coated with a thick, white fur, bowels very irregular and costive, hectic fever, night sweats, dry, hard cough difficulty of breathing and low spirits I by stomach at this time was a burr and weak, I was afraid of falling I could stand erect This was my situation when I commenced the use of N H DOWN'S ELIXIR — And to my great joy and the greater joy of my temple I found that before the use of it a half day I felt relieved by bowels equalized the circulation and pried ced a healthy moisture upon the skin I used three bottles in two weeks, which entirely removed the soreness and weakness from my stomach, gave a good appetite, and greatly improved my strength I continued to use six weeks, using six bottles at which time I was able to resume my ministerial labors I have since recommended it to a large number, and have never known it to fail of doing good where the directions were followed

I have given it to my children in colds and in cases of measles, and it has proved all that is recommended to be

I therefore cheerfully recommend N H DOWN'S VEGETABLE BALSAMIC ELIXIR to all who are afflicted with any of the diseases for which it is recommended Yours truly, J L D YOUNG

Camden, August, 1849

Facts deduced from the foregoing letter

1st, Down's Elixir is luxative—curing costiveness while other medicine increases that difficulty.

2d It is perspiratant It equals the circulation—restores health, moisture to the skin, and vigor and tone to the system

3d It removes soreness and weakness from the stomach—gives a good appetite, and restores strength to the system

4th It cures colds—is an effectual remedy for the measles, and proves ALL IT IS RECOMMENDED TO BE

It is sold by Druggists and dealers in medicine throughout the country, and at wholesale and retail at proprietor's prices by DAVID BUGBEE G W LADD, CURTIS & PERKINS A P GUILD WM MANN, G McFARLAND Bangor, L. A LIFE SAVED.

Most Wonderful Cure of a man 80 years of Age

In the month of November, 1849, I was attacked with Rheumatism, which in a few days took out a warrant, and *Mr Rheumatism* entered and the first point of view he came in At the time I took the best physician in the country to see me but he could not do me any help The agony of pain I endured no one can imagine for the space of eight days, and I gave up all hopes of ever being able to walk about my house and after four months I went to my bed, finally told me I must *prepare to die*—that as soon as the warrant for me by me, would mount up and death ensued I gave up to be sure This of my friends brought me a bottle of STANTON'S LINIMENT which he said would relieve the pain I applied it and the effect was wonderful, it seemed as if now life was put in me. In using the bottle I was able to go from my bed, and in 50 cent bottles entirely cured me, to the astonishment of myself and the whole neighborhood *Hunt's Liniment saved my life* I am 80 years of age, and thank this public that every human being may know the value of this great medicine

Extraordinary case of Hip and Spinal Disease

SARAH WHEELER, of COLUMBIA Co, N Y Aug 27, 1849.

Gent—I am with pleasure that I am known to the public as one of the individuals cured from the use of Hunt's Liniment About 6 years ago I was injured by a horse, in the HIP and SPINE so badly that I could not move without the aid of Crutches

I grew gradually worse for Four Years, a though under the care of two successful Physicians who finally gave up my case as hopeless My hip gathered and broke and continued a running sore, since I was told by the Doctors that I could never be cured using Hunt's Liniment, which at once gave me relief I used in all 20 Bottles during the past year, and am entirely well I am free from pain, can now walk, I think the use of your Liniment saved my life I had been under the care of a number of Physicians and can testify as to my sufferings and the cure

SARAH WHEELER

PROPRIETOR'S FALLS, VERMONT March 19 1849.

SIR—I have made use of your Liniment for some time and impartially I have put it to test and with great success in SPRAINS and bruises, and also to where every application failed to relieve pains in the back, and in case of white swelling Hunt's Liniment completely cured him and he is now in his usual health, this is only one of many cases, that have been cured in this neighborhood Yours &c

N S DORMAN

BARNEBURY, CORN, August, 1848

DEAR SIR—Being about the quantity of a gallon of Hunt's Liniment which I purchased of you, I had reason to test its qualities in a case of spinal affection of my wife's mother, which had resisted the skill of the most eminent physicians in the country, and which had been pronounced incurable by them, and which had confined her to her bed for more than two years, and which I am happy to say was entirely relieved by the use of your Liniment, and she is now able to walk about the house

COMPOUND EXTRACT OF

SARSAPARILLA,

Wonder and Blessing of the Age

THE MOST EXTRAORDINARY MEDICINE IN THE WORLD!

This Extract is put up in Quart Bottles—it is six times as super pleasanter and warranted superior to any sold. Leaves without vomiting, purging, sickening; or debilitating the Patient

The great beauty and superiority of this Sarsaparilla over all the medicine is, while it eradicates diseases it invigorates the body It is one of the very best

SPRING AND SUMMER MEDICINES

ever known it not only purifies the whole system and strengthens the person, but it *creates new, pure and rich blood* a power possessed by no other medicine And in this fact is the grand secret of its wonderful success — It has performed within the last five years, more than 100,000 cures of severe cases of disease, at least 15,000 of which positively incurable It has saved the lives of more than 5 000 children during the two past seasons

10,000 *CASES OF VOMITING, DEBILITY AND WANT OF NERVOUS ENERGY*

Dr Townsend's Sarsaparilla invigorates the whole system permanently Those who have lost their energy by the effect of medicine or indiscretion committed in youth, or the excessive indulgence of the passions, or brought on by a great physical prostration of the nervous system, insanity, want of attention, fearful sensations, premature decay and decline, have a big reward in this great discovery, can be certainly restored by this pleasant remedy. This Sarsaparilla is far superior to any

INVIGORATING CORDIAL,

As it rectifies and invigorates the system, gives new energy to the limbs, and strength to the muscular system, in a manner not ever ordinary observed.

CONSUMPTION CURED

Cleanse and Strengthen. Consumption can be cured Bronchitis, Consumption, Liver Complaint, Colds, Catarrh, Coughs, Asthma, Spitting of Blood, Soreness in the Chest, Hectic Flush, Night Sweats, Difficult or profuse expectoration, Pain in the Side, &c, have been cured

SPITTING BLOOD.

New York, April 28, 1847.

DR TOWNSEND—I verily believe that your Sarsaparilla has been the means, through Providence, of saving my life I have for several years had a cough, attended with spitting of blood At last I raised, last, a quantities of blood, had night sweats, and was greatly debilitated and reduced and did not expect to live I have only used your Sarsaparilla a short time, and where has at once checked the cough and brought me to. I now able to walk all over the city I raise no blood, and my cough has left me. You can well imagine that I am thankful for the results

Your friend and servant,
WM RUSSELL, 55 Catharine st.

RHEUMATISM

This is only one out of a hundred thousand cases of Rheumatism that Dr Townsend's Sarsaparilla has cured The most severe and chronic cases are weekly eradicated by its extraordinary virtues

James Cunningham, Esq., one of the assistants in the Lunatic Asylum, Blackwell's Island, is a gentleman well known and in the following letter

Blackwell's Island, Sept 14, 1847.

DR Townsend—DEAR SIR—I have suffered severely at one time with the Rheumatism, constantly at the time I could not eat, sit up or walk I had the utmost distress and torture, and my limbs were entirely swollen I have used four bottles of your Sarsaparilla and very happy to say that I am entirely cured, and from one who was entirely helpless to one who can attend to his duties, and who feels perfectly well, I have used many other medicines, but none a little Castor Oil or Magnesia is useful But your Sarsaparilla in the open air, and light food with this medicine, will always ensure a safe and easy cure in a month

BEAUTY AND HEALTH

Cosmetics, Chalk, and a variety of preparations generally in use, when applied to the face, every moment spoil it of its beauty. They close the pores of the skin, and check the circulation, which, when nature is not interfered with, is the cause of health, as is denoted by the alkalies used in soaps, neutralize its own production in the human face, divine," as well as in the garden of richand delicately tinted and variegated flowers and fruits, active and healthy circulation of the fluids or the running of the pure, rich blood to the extremities, is that which paints the countenance in the most exquisite beauty It is that which imparts the delightful shades and flushes of loveliness that all admire, but none can describe. This beauty is the at spring of nature—not of powder or soap It then is not a free and healthy circulation, there is no beauty If the body is fair as driving snow, a fine paint and use of cosmetics, and the blood is thick, cold, and impure, the is much lovelier If she be brunette or yellow, and there is pure and active blood, it gives a rich bloom to the cheeks, and a brilliancy to their eyes, that is fascinating.

This is the reason why the southern, and especially the Spanish ladies, are so much admired. Ladies in the north who take but little exercise or are confined in close rooms, or have spoiled their complexion by the application of deleterious mixtures, if they wish to regain elasticity of step buoyant spirits, liquid limbs, and beautiful complexions, they should use Dr Townsend's Sarsaparilla Thousands who have tried it are more than satisfied, are delighted Ladies of every station crowd our office daily

NOTICE TO THE LADIES

Those that in want Dr Townsend's Sarsaparilla have invariably called their stuff a *great remedy for females, &c, &c*, and have copied our bills and circulars which related to the complaints of women word for word—either men who put up medicine delve, since the great success of Dr Townsend's Sarsaparilla in complaints peculiar to females, recommended theirs, although their only they did not A number of these Mixtures, Pills &c, are injurious to females, as they aggravate diseases and undermine the constitution

SCROFULA CURED

This Certificate conclusively proves that this Sarsaparilla has perfect control over the most obstinate diseases of the blood —three persons cured in one house unprecedented

THREE CHILDREN

Dr Townsend Dear Sir—I have the pleasure to inform you that three of my children have been cured of Scrofula by the use of your excellent medicine — They were afflicted very severely with head sor—have taken only four bottles of it and they are entirely well I feel myself under great obligations to you especially as I am a poor mechanic and the like Yet he assumes he title of Dr., for the purpose of gaining credit for what he is not This is to caution the public not to be deceived, and purchase none but the *GENUINE ORIGINAL OLD* Dr. Jacob Townsend's Sarsaparilla, having on it the Old Dr's likeness his family coat of arms, and his signature across the coat of arms

CAUTION.

Owing to the great success and immense sale of Dr Townsend's Sarsaparilla, a number of men who were formerly our Agents, have commenced making Sarsaparilla Extracts, Elixirs, Bitters, Extracts of Yellow Dock, &c., and generally put it up in the same shaped bottles, and some of them have stole and copied our advertisements,—they are worthless imitations, and should be avoided.

CAUTION EXTRA

A man by the name of *CLAFF* has engaged with a young man of the name of S P Townsend and uses his name to put up a Sarsaparilla, which they call Dr Townsend's Sarsaparilla, denominating it *GENUINE* Original etc This Townsend is no doctor and never was, but was formerly a worker on railroads canals, and the like Yet he assumes he title of Dr., for the purpose of gaining credit for what he is not This is to caution the public not to be deceived, and purchase none but the *GENUINE ORIGINAL OLD* Dr. Jacob Townsend's Sarsaparilla, having on it the Old Dr's likeness his family coat of arms, and his signature across the coat of arms

OLD DR. JACOB TOWNSEND,

THE ORIGINAL DISCOVERER OF THE

Genuine Townsend Sarsaparilla.

OLD Dr Townsend is now about 70 years of age, and has long been known as the *AUTHOR AND DISCOVERER* of the *GENUINE ORIGINAL "TOWNSEND SARSAPARILLA"* Being poor he was compelled to limit his manufacture by which means it has been kept out of market and the sales circumscribed to those only who had proved its worth and known its value It had reached the ears of many nevertheless, as those persons who had been healed of sore diseases, and saved from death proclaimed its excellence and wonderful

HEALING POWER.

Knowing, many years ago that he had, by his skill, science and experience devised an article which would be of incalculable advantage to mankind when the means would be furnished to bring it into universal notice, which its inestimable virtues would be known and appreciated This time has come, the means are supplied this

GRAND AND UNEQUALLED PREPARATION is manufactured on the largest scale and is called for throughout the length and breadth of the land especial ly as it is found incapable of degeneration or deterioration.

Unlike young S P Townsend's it improves with age, and never changes, but for the better because its preparation *on scientific principles* by a *scientific man*. The highest knowledge of chemistry, and the first discoveries of the age have all been brought into requisition in the manufacture of the Old Dr's Sarsaparilla The Sarsaparilla root it is well known to medical men contains many medicinal properties and when prepared which are latent or neutral and others which if changed in preparing it for use produce *fermentation* and acid, which is injurious to the system Some of the properties of Sarsaparilla are very volatile and these evaporate and are lost in the preparation if they are not preserved by a *scientific process* known only to those experienced in manufacture Wherever it can be get the price which Dr Townsend's is worth, it is valuable and is the best article known

Any person can buy or steal the root till they get a dark colored liquid or decoction but the leaving matter in the root than from any thing else, has caused more than this insipid or watery liquid sour on with sour molasses, and the gull it SARSAPARILLA EXTRACT OF SYRUP But such is not the article known as the

GENUINE OLD DR JACOB TOWNSEND'S SARSAPARILLA

This is so prized and just as the best properties of the Sarsaparilla root have first removed every thing capable of becoming acid or of fermentation it is cured and rejected then every particle of medicinal virtue is secured in a pure and concentrated form, and thus it is rendered incapable of losing any of its valuable and healing properties Prepared in this way, it is made he most powerful agent in the

Cure of innumerable diseases

Hence the reason why we hear commendations on every side in its favor by men women, and children We find it daily suggested in the cures of *CONSUMPTION DYSPEPSIA* and *LIVER COMPLAINT*, and in *RHEUMATISM, SCROFULA, PILES, CONSTIPATIONS* and *NERVOUS AFFECTIONS*, these extraordinary preparations, and all affections arising from

IMPURITY OF THE BLOOD

It possesses a curative influence in all complaints arising from the *Indigestion or debility of the Stomach* from unequal circulation or derangement of blood to the head palpitation of the heart, cold feet and hands cold chills and hot flashes over the body It has never failed in health, together with some certificates from highly respectable persons, testifying to their healing virtues and urging them to patronage This book can be obtained of the Agents without charge
